Subject: Code Red!

Dear MLA Michelle Babchuk,

With today's IPCC report of **Code Red** for climate change, I want to urge you to do everything you possibly can to:

1. stop oil and gas exploration and expansion in BC, including fracking,
2. stop government subsidies to the oil and gas industry in order to fund renewables,
3. stop Canada LNG,
4. stop the cutting of old growth forests, and
5. work to phase out the use of coal, oil and gas as an emergency priority.

This is a crisis situation, and if things aren't turned around immediately, the results will be catastrophic!

Yours truly,

Joyce Baker,
