Re: Notice to Remove Private Land from Woodlot Licence W1897

June 24, 2024

Please be advised that Benner Forestry Ltd. is proposing to remove the private land from our woodlot license W1897 on Quadra Island. Our family have held this woodlot licence since 1999 and we originally included our private property as Schedule A land under the woodlot licence. Consistent with provincial regulations, we are now proposing to remove these 7 hectares of private land from our woodlot licence to support family estate planning and more easily carry out small scale farming. These 7 hectares encompass the forest, gardens, and trails around my house and my son's house at 1208 and 1210 West Road (halfway between Quathiaski Cove and Heriot Bay). This private land is roughly a 20-minute drive south of the 400-hectare Crown portion of our woodlot licence on Quadra Island. If you have any information or input about this application, please let me know by August 1, 2024, via the email address below.

Regards,

Jerry Benner, RPF
