RE: REQUEST FOR DISCOUNT - CAMPBELL RIVER STORM HOCKEY CLUB

PURPOSE/PROBLEM

To consider the request from the Campbell River Storm Hockey Club to provide a discount or refund for the 2020/2021 season on part of the fees established through the license agreement.

EXECUTIVE SUMMARY

The Campbell River Storm organization submitted a letter (dated April 15, 2021) requesting that the Strathcona Regional District provide a discount or refund for a portion of the fees included in its license agreement. The individual rates in the license agreement have been bundled into a monthly fee. The rates charged for the ice surface are not billed out per hour. Their monthly fee is made up of ice bookings, rental of exclusive and non-exclusive areas, summer ice for Rookie Camp, Main Camp and Boot Camp, and advertising.

COVID-19 has been an unprecedented time for both the Regional District and the Campbell River Storm. It impacted the end of the 2019/2020 season when the facility closed on March 16, 2020 under an abundance of caution to slow the transmission of the virus in the community. The monthly fees outlined in the contract ceased from March 2020 until September 2020 due to the limited access and restrictions posed onto the facility. The 2020/2021 season started out with a plan to resume normalcy with advertising placed into the ice surface in the Rod Brind'Amour arena and arena board/wall advertising secured for another year. The season was slow to start and adjustments from a facility operator and organization's owner point of view needed to be established and communicated. There were several logistics involved in running the season with limited numbers allowed in the facility at any one time, the regulations around screening, use of the dressing rooms, how game play happened or in some cases did not happen, the regulations around masking within the facility, and of course, the inability to welcome spectators into the arena. Due to all the uncertainty in August, the Campbell River Storm was not billed its monthly rate in August 2020 and still managed to use 82 hours of ice time for their main camp at the end of August, this aligns similarly with the hours they booked in 2019.

The letter from the Campbell River Storm organization provided a listing of the hours that were cancelled during the 2020/2021 due to COVID-19 restrictions or other challenges that made it impossible for the organization to keep their commitment. Of the 78 hours that were slated to be booked for skills ice, playoff games, regular season games, and Cameryn's Cause all but 12 hours were resold to other organizations – for the most part Campbell River Minor Hockey for a net value of approximately \$2,300.

The Campbell River Storm used 369.75 hours of ice time during the 2020/2021 season, if the Regional District were to charge out based on the fees outlined in the bylaw of \$76.95 per hour,

the ice fees alone for the billing period would be \$28,452. The Campbell River Storm based on the bundling of services was charged \$22,461.40 until the end of March 2021. Therefore, based on the license agreement and the bundling of services, the ice bookings alone saved the organization approximately \$6,000 based on the junior hockey ice rate listed in the current fees and charges bylaw.

During a typical Junior “B” hockey season, bookings are moved, cancelled, or adjusted and no refunds are issued due to the bundling of services within the licence agreement. However, this year staff recognize that the access to the facility was impacted with COVID-19, so services or amenities included in their licence agreement were greatly reduced or unable to be delivered due to Provincial Health orders and restrictions. This includes the Regional District’s agreement to purchase 10 tickets for every regular season game that provides revenue to their marketing program of \$2,640 per season.

It is staff’s recommendation that based on the ice that was able to be resold back and the restrictions and orders that limited use for non-exclusive and exclusive spaces, that on a without prejudice and without precedent basis, that the Regional District, credit the Campbell River Storm the equivalent to what was resold. In terms of the Regional District’s agreement to purchase 10 tickets for every regular game in the season, operationally spectators could not be in the stands under Provincial Health orders for the 2020/2021 season. Therefore, the opportunities could not be offered by the Campbell River Storm organization, and consequently not purchased by the Regional District.

RECOMMENDATIONS

1. THAT the report from the Chief Administrative Officer be received.
2. THAT the Commission recommend that Regional District approve a customer account credit equivalent to the value of ice resold to other organizations (66 hours) on a without prejudice and without precedent basis due to the COVID-19 pandemic.

To whom it may concern;

Please accept this letter as a request for a discounted or refunded portion of our contract with the Strathcona Regional District. As the SRD knows, our past two seasons have been severely impacted by COVID-19 and the restrictions in place because of this global pandemic.

Two seasons ago, our playoffs were cut short and we failed to bring in much needed revenue through the 2nd and 3rd round of playoffs as well as multiple summer camps, including our Identification Camp and Kids Summer Camp.

This season, we started late and unfortunately were shut down after only getting 13 games completed, 7 of which were home dates. However, even these 7 dates were impacted as we were unable to welcome any fans which also greatly affected our ability to generate revenue through our Marketing department. This also included 240 tickets that the SRD purchases through the Storm as part of our contract totalling \$2640.00.

With the restrictions, much of the ice we are granted through our contract, was unusable and was returned to the facility. It is our understanding that a good portion of the ice was able to be sold back to the community. We are hoping to receive a refund or credit moving forward based upon the unused ice. We have attached a secondary page that lists the dates and hours that were unused that we are looking to receive a credit for the amount of 78 hours.

Thank you very much,

Linda Spooner
