\*\* NOTICE: This email is from an external source.\*\*

To the Director and Board Members,

Today, for the third time, my Take Heart class has been cancelled due to the strike.

I am taking this class, that was highly recommended by my specialist, after a recent heart attack. The staff are extremely helpful and knowledgeable. Young people with families.

I pay a monthly membership for these classes and now find I am punished financially, paying for classes I cannot attend because of the mean spiritedness of the SRD. The information regarding your salaries and recent increases in your pay reflect this.

Please move forward with this and meet the requests of those on strike and allow people like me to benefit from the classes we are missing. The staff deserve what they are requesting.

Respectfully  
Dawn Piche
